

Medi-soft® cushions

Providing comfort and care

MediSOFT®
CUBRO

Medi-soft® is a range of pressure relieving cushions that help to help achieve correct alignment. They are ideal for individuals that sit for long periods of time.

Medi-soft® lumbar cushion

A semi-circular cushion that provides pressure relief and support. Ideal for all-round use under knees, arms, ankles, lumbar region or neck. Comes with elastic straps and buckle to secure cushion to chair.

Short: 997 Long: 998

Medi-soft® chair cushion

A unique memory foam cushion. Helping provide medium pressure relief and designed to reduce shear and friction forces. The cushion warms to conform to the individuals shape, maximising the body's contact area, providing excellent comfort. Comes with cover.

Code: 993R

Medi-soft® ring cushion

A firm ring-shaped cushion for pressure relief when seated. Helping to distribute weight evenly making it easier for the individual to maintain the correct seated position. Comes with cover and carry bag.

Code: 1353

Medi-soft® foam ring cushion

An oval, moulded foam cushion for post-surgical patients or anyone needing additional comfort when seated for long periods. Comes with a cotton cover.

Code: 976
